**Describe the Where did I came to job.**

I came of a poor family. My village name Godokhali, Post: Kalaroa, Dist: Shatkhira. I passed primary education in 1994 and then, I got admitted Kalaroa Pilot high school. I pass the SSC in 2000 before starting 20 days of my ssc exam, I cut off from in all my relatives. I bear all my educational expense. So I have to hard work from my childhood. At that days I went to seek a job to support my family and try to remove my miserable condition. In this way passed my HSC exam in 2003 and than I admitted myself in govt M M Collage for higher education in 2008 I completed my higher education. After completing my higher education I involve myself as a marketing representative. Through the daily "Gramer kagoj" I came to know an employee appointed for a post. So I consider myself as right person to apply for the post. My aim was to be a teacher to build up my carrier. "BANCHTE SHEKHA" is such a program, so I prepared myself involve into the job. I had a long cherished dream help all the helpless children. Today my dream come true I will fell good. When I will mix with all the helpless children in all my life. I want to serve to such a job. So that I can remove all the darkness and develop all the helpless children. I want to teach them how to differentiate between right and wrong. In fine I want to say that. I thanking myself after gating such a job. I greet to them from the core of my heart, who organized such a good program "BANCHTE SHEKHA" and great full thanks to "IDEA ONLUS ITALY" for giving a opportunity working for the disadvantage children.
