We are happy to introduce ourselves with you again, and to tell you about all the activities that have been happening in July 2012.

During this month, we were busy to continue our regular work and taking new initiatives. As you know, we are working with most disadvantaged and poorest community people. We found that gradually the school attendance of the supported students improving. We are very happy to know about the fund collection progress of the PRERONA Project. We hope to start the project soon.

The following is a discussion of the major works undertaken during the reporting period and the plan for the next month.

#### **a. THE NEW INITIATIVES/ACTIVITIES**

- 1. Medical Camp:** According the Medical Survey report, Physician screening the patient and total 359 patients receive the medical check-up and advice. Later according the prescription we provided medicine to the 359 patients of Jogahati, Churamankati, Mohishati and Sorupdaho Community. As you know, the community peoples do not have the ability to reach proper medical consultation. Medical Camp gives the opportunity to take and get specialized medical support.
- 2. Kitchen Gardening:** Now in monsoon season so, like previous years, this year also Jogahati and other project working area we started to plant as Kitchen Gardening. During couple of month at the community, families are planting vegetable in surrounding the houses. The importance of optimal nutrition for health and human development is well recognized. These gardens have an established tradition and offer great potential for improving household food security and alleviating micronutrient deficiencies. Gardening can enhance food security in several ways, most importantly through: 1) direct access to a diversity of nutritionally-rich foods, 2) increased purchasing power from savings on food and income from sales of garden products, and 3) Availability of fresh vegetables at the finger tips. One of the easiest ways of ensuring access to a healthy diet that contains adequate macro and micronutrients is to produce many different kinds of foods in the kitchen garden. This is especially important in rural areas where people have limited income-earning opportunities and poor access to markets. Kitchen gardens are also becoming an increasingly important source of food and income for our community.
