We are happy to introduce ourselves with you again, and to tell you about all the activities that have been happening in November 2011.

The following is a discussion of the major works undertaken during the reporting period and the plan for the next month. In addition, you are going to enjoy reading Edoardo monthly exclusive experience report.

THE INTERN'S CORNER;

By Edoardo Trimarchi

Hello to everyone again. It is with a little bit of sadness that I wrote to you for the third and last time. It seems yesterday when I first arrived in the village of Jogahati and now it is already time to say goodbye.

For all the students, however, the beginning of December means just one thing: Final Exam! In the first two weeks of this month, in the 13 schools of our adopted students, the exam deciding next year class will be on. A failure in the Final Exam will mean repeating the same class, increasing the chances for students to drop out. In the Teacher Meeting of November all the staff of the project highlighted the importance of this event for the students and explained to the teachers that the expectations are high. During the numerous visits in the villages, the tension and the concentration of both students and teachers were easy to spot. In Jogahati for example, it happened many time that students were in the tuition school even an hour before the start of the programme. They told me that to pass the final exam they will do whatever is in their possibility, even if it means give up an hour of play or leisure.

I have to say that, although in a small amount of time, I have seen many changes in the student's preparation and knowledge. In the village of Moishathi for example, where the Tuiton Programme is on just from July, I noticed some major results achieved by students. One of them is Billal, a six years old student of class I. In October, when I first met him, he had difficulties even in writing his name in Bangla. After less than two months and a lot of attention from the Tuition Teacher and the Community Motivator the results are quite surprising. Now Billal is not only able to write without problems his name both in Bengali and in English, but he learned how to write and read all the 39 letters of the Bangla alphabet. This will be enough for pass this year's exam.

This month was also really important because two survey were implemented in the village of Jogahati: the first about the house condition and the second about the medical situation of the habitants. In that, way we will be able to deploy a medical camp in December and collect vital data for the "Prerona" project. Thanks, these surveys we were able to do a complete census about the population in Jogahati, discovering that there are 344 habitants, and half of them are children. That shows that this project, whose beneficiaries are the children, have the potentiality to change completely the economic and social condition of Jogahati. And we all hope that this will happen.

I hope you enjoyed reading my experiences here in Bangladesh. I want to thank very much both IDEA and Banchte Shekha for giving me this valuable opportunity, I am sure that I will never forget these five Bangladeshi villages.

a. THE NEW INITIATIVES/ACTIVITES

- 1. House Survey: To collect the housing situation we conducted the survey at Jogahati. Total 72 houses door-to-door survey has been made. In brief, we found 10 houses need to build completely and 9 houses need to be partially repaired. Some houses living 2 families together so, we counted one families for new house proposal. Total population of the community is 344 people.
- 2. Medical Survey: We collect individual family member's medical information and we found 91 patients who need the medical treatment. During December, we will conduct the medical camp for the patients.
- 3. Tuition Study Centre: We are constructing a tuition study centre at Sorupdaho. At present, we are providing tuition class to the students at Binoy house veranda and some time at yard. However, the place is not convenient and the family require to using the veranda. Last October distribution we raised the problem to the community and community willingly provided us good space to construct the tuition study centre. To build the centre we ask for some contribution from the community, we are happy to say that willingly community members prepare the mud foundation and provided physical labour to building the centre. The centre is helpful for the student to put more concentration on the tuition study as well as community people can use this place as community centre. To building, study centre we thanks to Vennozza Della Seta and her family for the financial support and big thanks to the community for their joint effort.
