We are happy to introduce ourselves with you again, and to tell you about all the activities that have been happening in February 2023.

The following is a discussion of the major works undertaken during the reporting period and the plan for the next month.

a. THE NEW INITIATIVES/ACTIVITIES

1. **Pre-school:** In 2013, with the help of the IDEA project, we had some money left over, and we decided to invest it in buying land in the Jogahati village. Our aim was to provide education for the children under five years old, who did not have access to any schools in the area. With this goal in mind, we set out to build a permanent school for them.

Recently, we noticed that the pre-school window grill and iron frames had become rusty due to the harsh weather conditions. We realized that if we did not take action soon, the structure would deteriorate further, making it unsafe for the children. So, we decided to take immediate action and restore it.

We gathered the staff and the students together, and we started working on removing the rust using sandpaper. It was a laborious task, but we all worked together, knowing that the safety of the children depended on it. Once we were done with the sanding, we painted the window grill and iron frames in bright green and red colors. The colors not only made the structure look more attractive, but they also protected it from rusting in the future.

The entire process was a great learning experience for everyone involved. The children got to see the value of teamwork, and they also learned how to take care of their environment. The staff got to bond with the students and with each other, and we all got a sense of satisfaction from knowing that we had contributed to making the school safer for the children.

Thanks to our efforts, the structure is now saved for another ten years. It is a testament to the power of community work and the positive impact that it can have on people's lives.
