Executive Summary

In June 2026, the BS Education Project continued supporting 118 sponsored and non-sponsored students across two villages. We successfully conducted pre-school and tuition classes for 26 days.

Throughout the month, our core activities remained focused on ensuring regular school attendance, providing after-school tuition support, distributing educational materials, and offering essential nutrition to preschool students.

a. THE NEW INITIATIVES/ACTIVITIES

1. **Adam Family: Adam's mother, Rohima Khatun**, raised her son under extremely difficult circumstances. Adam's father abandoned the family when he was very young, leaving Rohima to raise him alone.

Adam was supported by our Sorupdaho sponsorship programme from **Class 2 to Class 5**. Although his sponsorship ended after his sponsor parents withdrew, he continued his education until **Class 7**.

To support her family, Rohima worked at a rice husking mill. Tragically, while operating the machine, she lost her **right hand** in a serious accident, leaving her permanently disabled. As a result, she was unable to find employment because she could no longer perform manual labour.

Through the **IDEA Prerona Project**, we provided Rohima with **one dairy cow** as a livelihood opportunity. With hard work and determination, she gradually expanded her small enterprise. Today, she raises **three cows each year**, earning income by selling calves and milk.

Thanks to this sustainable livelihood, Rohima has been able to purchase agricultural land for rice cultivation, build a house, and buy a locally made **rickshaw van** for Adam.

Adam now operates the rickshaw van and earns approximately **BDT 20,000 per month**. Combined with the income from selling milk and calves, the family now enjoys a stable and dignified livelihood.

Rohima's journey is a powerful example of how IDEA project livelihood support can transform the lives of vulnerable families, helping them move from hardship to self-reliance.

b. THE ROUTINE ACTIVITIES IMPLEMENTED

1. **Guardians' Meetings:** During this month, we held 2 guardian meetings in Jogahati, and Churamankati villages. In these meetings, we discussed the role of parents at home and

students' attentiveness to their studies at school and home. Guardians participated actively in the meetings.

2. **Community Visits:** During this month, the Community Motivator visited Jogahati village 13 times and Churamankati village 12 times. The visits were to follow up on community progress activities, student study at home, and to supervise the tuition programmes.
3. **Door-to-door Visits:** To follow up on student study at home, Tuition Teachers and Community Motivators visited all 118 student households during this month. The door-to-door visits ensured family involvement with the project and student study, progress on domestic cattle care, cleanliness of homes and clothing, proper utilization of distributed materials, and kitchen gardening.
4. **Tuition Programme:** To improve student attendance and scholastic development, tuition teachers provide after-school study support to students every working day. Through this program, we ensure the students' study progress. During this month, a total of **26 days** of tuition classes were conducted at 2 study centers. The monthly data is as follows:

SL	Location / Community	Number of Teachers	Number of Sponsored Students	Number of Non-Sponsored Students
1	JOGAHATI Tuition Programme	3	44	28
2	CHURAMANKATI Tuition Programme	1	7	18
3	JOGAHATI PRE-SCHOOL Programme	1	3	17
	Total:	5	54	63

** 1 individual adopted students receive private tuition support.*

5. **Nutrition Programme:** Each day, we provide food at our pre-school, recognizing the nutritional needs of students from very poor families who may suffer from malnutrition. This meal program plays a vital role in ensuring essential nutrition for these children at an early age. Consequently, we observe improved attentiveness and regular attendance among the children in classes, while parents demonstrate heightened awareness and interest in enrolling their children in pre-school. Below, we have included a list of individual students to monitor their progress in weight and height.
