Executive Summary

In May 2026, the BS Education Project continued supporting 118 sponsored and non-sponsored students across two villages. We successfully conducted pre-school and tuition classes for 20 days.

Throughout the month, our core activities remained focused on ensuring regular school attendance, providing after-school tuition support, distributing educational materials, and offering essential nutrition to preschool students.

a. THE NEW INITIATIVES/ACTIVITIES

1. **Sorupdaho Village:** As you know, for many years we have supported students in Sorupdaho Village, which is part of the Jogahati Paroi community. The families live on government land along the banks of a canal and face significant social and economic challenges. Over the years, we have supported the community through tuition classes, educational assistance, and various development projects. However, the number of sponsored students has gradually declined. In recent years, only one sponsored student remained, but we continued to provide tuition support for around 20 non-sponsored students to help them continue their education. Unfortunately, following the withdrawal of the last sponsorship and due to funding constraints, we had to discontinue these activities last year. Recently, the situation has become even more difficult. As part of a canal excavation project, the government dredged the canal and deposited large amounts of excavated soil along its banks, where around 20 families had been living. As a result, these families were forced to leave their homes and are now living in temporary shelters nearby under very challenging conditions.

b. THE ROUTINE ACTIVITIES IMPLEMENTED

- Guardians' Meetings:** During this month, we held 2 guardian meetings in Jogahati, and Churamankati villages. In these meetings, we discussed the role of parents at home and students' attentiveness to their studies at school and home. Guardians participated actively in the meetings.
- Community Visits:** During this month, the Community Motivator visited Jogahati village 10 times and Churamankati village 8 times. Also to follow-up the situation we visited the Sorupdaho village 1 times. The visits were to follow up on community progress activities, student study at home, and to supervise the tuition programmes.
- Door-to-door Visits:** To follow up on student study at home, Tuition Teachers and Community Motivators visited all 118 student households during this month. The door-to-door visits ensured family involvement with the project and student study, progress on domestic cattle care, cleanliness of homes and clothing, proper utilization of distributed materials, and kitchen gardening.
- Tuition Programme:** To improve student attendance and scholastic development, tuition teachers provide after-school study support to students every working day. Through this program, we ensure the students' study progress. During this month, a total of **20 days** of tuition classes were conducted at 2 study centers. The monthly data is as follows:

SL	Location / Community	Number of Teachers	Number of Sponsored Students	Number of Non-Sponsored Students
1	JOGAHATI Tuition Programme	3	44	28
2	CHURAMANKATI Tuition Programme	1	7	18
3	JOGAHATI PRE-SCHOOL Programme	1	3	17
	Total:	5	54	63

** 1 individual adopted students receive private tuition support.*

- Nutrition Programme:** Each day, we provide food at our pre-school, recognizing the nutritional needs of students from very poor families who may suffer from malnutrition. This meal program plays a vital role in ensuring essential nutrition for these children at an early age. Consequently, we observe improved attentiveness and regular attendance among the children in classes, while parents demonstrate heightened awareness and interest in enrolling their children in pre-school. Below, we have included a list of individual students to monitor their progress in weight and height.

Nutrition monitoring shows positive progress: The weights of 17 students and the heights of 20 students have shown improvement. However, only 3 students had slightly lower weights. Children with slight weight loss are being monitored closely, and parents have been counselled on home nutrition.
